

# EASE Framework for Improving STBBI\* Testing & Linkage to Care in BC Corrections

\*STBBI = Sexually Transmitted and Blood Borne Infections

# E

## Everyone

is offered STBBI testing at intake and at **every** health care appointment

# A

## Aim

for everyone to be linked to care and treated early

# S

## Simple & Safe

### Simple for providers:

- Pre-signed lab requisitions
- Simple healthcare documentation tools

### Safe for clients:

- 3 testing options\*: express, standard, decline testing
- Confidential results

# E

## Education

on STBBI basics, stigma, cultural safety and trauma-informed care is routinely available for staff and clients

\*Express testing = no pre-test discussion; Standard testing = non-stigmatizing trauma informed pre-test discussion; Decline = can decline testing and is provided options for later testing.
